The main goal of the program is to help the participants to gain new instruments and to broaden their networking for the development of economic relations between their countries and the U.S. This year Program will be focused on innovations, knowledge-driven economy and tech development.

The program will take place over a week-long visit to the United States, including training events led by high-level US officials and analytical community representatives that will provide deeper insight into the interaction between state and business. At the conclusion of the program, the participants will submit recommendations and conclusions regarding the implementation of their assigned thematic area in their countries.

Dates of the Young Leadership Program 2019 are June 02-June 9, 2019. The costs related to participation of the requested candidate will be fully covered by the StrategEast Young Leadership Program 2019 organizers. The United States Visa support will be provided upon request.
