Subject: Meeting Request

Dear Mr. Grigoryan,

I will appreciate your support in arranging a meeting with the respective officials of the Ministry of Health to discuss possible collaboration with the Office of Defense Cooperation (ODC) of the U.S. Embassy in Armenia.

Please note that this year ODC focuses its assistance on disaster preparedness and response during mass casualty events. The scope of ODC's assistance may include both on-the-job training for the personnel and renovation works in selected hospitals to improve the capacity of health facilities to handle mass casualties.

We look forward to your response and collaborating closely on this unique partnership opportunity.

Kind regards,

Astghik Grigoryan, MD, MPH
