We have the honour to invite you to participate in a high level working meeting at the occasion of the 70th World Health Assembly and launch of the Global Hepatitis Report 2017

New Opportunities to Eliminate Viral Hepatitis - Optimizing Access Strategies

When: Tuesday, May 23, 6:30pm- 8:00pm

Where: Hotel Intercontinental, Geneva

For the first time in history, we have an opportunity to eliminate viral hepatitis. The recent emergence of directly acting antivirals and low cost diagnostics provide affordable solutions globally. This dialogue will explore practical solutions and new collaborative approaches to get value for investments towards hepatitis elimination.

Agenda:

- Recent developments in Hepatitis C and Hepatitis B
- Country presentations - ongoing programs towards elimination and challenges
- How to accelerate elimination of Viral Hepatitis
- Possible Implementation scenarios in public and private sector
- Opportunities for collective action

Participants will include:

Ministers of Health from several countries; World Health Organization (WHO) - Global Hepatitis Programme; The Global Fund; UNITAID; World Hepatitis Alliance; Center for Disease Analysis Foundation (CDA Foundation); Gilead Sciences; Abbott Diagnostics and GD Impact.

Participation is by invitation only – the number of participants will be limited to less than 20 to enable a high level dialogue.

RSVP: Please email to Catalina Linares at clinares@gd-impact.org by Friday, May 15

Co-hosted by CDA Foundation, GD Impact, Gilead and Abbott
