This is to certify that DEAN & PATTISEN INTERNATIONAL MENSWEAR (HZ) PTY. LTD have made a sales purchase contract (DP202007-G001) with WEEKEND LLC. The agreement was made for 20600 Disposable Protective Clothing and 25000 Isolation Suites. The order was ready for shipment on the 16<sup>th</sup> of April 2020. Independent Inspection and Factory Audit took 2 days by SGS and the full order was shipped on the 19<sup>th</sup> of April 2020. This order was meant for the following flight:

22 April 2020 from Zhengzhou International Airport (CGO) (Permission Number: CAD/N455)

On the next week the government of China imposed new regulation for export, which put us in the situation where we had to change Quality Certificate Stickers and packaging for 45600 PCs of protective products. Each packaging was changed and adapted to the new rules and regulations. When we changed the Quality Stickers and Packaging, another regulation was implemented by the Chinese Government. The government requested Category I medical test report/Certificate for 25000 units of Isolation suites. However, since the 2014 health reform in China, Category I certificate is not being issued by the government and only Category II was being used. We have still managed to check in and ship the 20600 units of Disposable medical clothing on the 28<sup>th</sup> of April, but we were not able to ship 25000 Isolation Suites at that time. Right after that we had to apply to the local government in Hangzhou and asked the local officials to help to solve this issue. We hereby confirm that the process is moving forward and will ship the remaining goods as soon as we get the sufficient documents for export regulations within this week 11 May 2020 to 17 May 2020. We hereby confirm that our company's production conforms to the quality standard of the first class medical devices in China.

Thanks for your understanding. We hope to do further business with you in the future.

Best Regards
