

Ref.: C.L.22.2020

The World Health Organization (WHO) presents its compliments to Member States and Associate Members and has the honour of announcing that the 43rd Expert Committee on Drug Dependence (ECDD) will meet from **12 to 16 October 2020**, in Geneva, Switzerland. In the event that the meeting should be held virtually due to exceptional circumstances, corresponding arrangements will be made. Given that ECDD meetings are of a closed nature, this letter serves to notify Member States of the substances under review at the 43rd ECDD, which are in the Annex I for reference.

WHO is mandated by the 1961 and 1971 International Drug Control Conventions to make recommendations to the UN Secretary-General on the need for and level of international control of psychoactive substances based on the advice of its independent scientific advisory body, the ECDD. To assess the appropriate control of a psychoactive substance, the ECDD convenes annually to review the potential of this substance to cause dependence, abuse and harm to health, as well as any therapeutic applications. In order to perform this review and make scientific and evidence-based decisions, the ECDD conducts medical, scientific, and public health evaluations of the selected psychoactive substances using the best available information.

Although the meetings are of a closed nature, Member States are invited to contribute to the ECDD review process by joining the 43rd ECDD Open Session on 12 October 2020. The Open Session will allow interested parties to present information concerning substances under review to the Expert Committee. Registration information will be made available on the ECDD website: <https://www.who.int/medicines/access/controlled-substances/en/>.

... As in the past and in line with the publication “*Guidance on the WHO review of psychoactive substances for international control*” (EB126/2010/REC1, Annex 6)¹, Member States can also contribute to the ECDD review process by providing accurate information concerning the substances under review in advance of the meeting. For this purpose, a questionnaire will be sent to Member States to gather country information on the legitimate use, harmful use, status of national control and potential impact of international control for each substance under evaluation.

... Annex II to this Circular Letter contains a list of national focal points officially designated by Member States in previous years who are approached to provide country information to the ECDD. If the individual(s) on the list is(are) still the official focal point(s) to be contacted this year for completing the ECDD Member State questionnaire, then no further action is required.

... ENCLS: (2)

C.L.22.2020

If the focal point(s) information require(s) changes or amendments, Member States are invited to send an email to eccdsecretariat@who.int by **7 July 2020** with the subject “43ECDD Focal Point: (Country Name)”. The Secretariat will provide the Member States with a form to update this information.

If no additions or amendments to focal point(s) details are made by this date, the focal point(s) from the list will be given further instructions and direct access to online questionnaires by the WHO Secretariat. Once received, the completed questionnaires will be prepared as a report as part of the 43rd ECDD substance review process.

In addition to the questionnaire, Member States are also encouraged to provide any additional relevant information (unpublished or published) on substances to be reviewed by the 43rd ECDD by emailing eccdsecretariat@who.int with the subject “Ref: C.L.22.2020”.

The World Health Organization takes this opportunity to renew to Member States and Associate Members the assurance of its highest consideration.

GENEVA, 23 June 2020

Annex I

43rd Expert Committee on Drug Dependence (ECDD) 12–16 October 2020

Substances for review

The substances listed below have never been formally reviewed by WHO and are not currently under international control. Information was brought to WHO's attention that these substances are clandestinely manufactured, of especially serious risk to public health and society, and of no recognized therapeutic use by any Party.

Synthetic opioids

Critical review:

1. Isotonitazene

Synthetic cannabinoid receptor agonists

Critical review:

2. MDMB-4en-PINACA
3. CUMYL-PEGACLONE

Benzodiazepines

Critical review:

4. Flubromazolam
5. Clonazolam
6. Diclazepam

Dissociative-type substances

Critical review:

7. 3-MeO-PCP
8. DIPHENIDINE
9. 2-MEO-DIPHENIDINE

Hallucinogen

Critical review:

10. 5-MEO-DALT

Synthetic stimulant

Critical review:

11. 3-FLUOROPHENMETRAZINE (3-FPM)
