№ 01/12956

15 / ივლისი / 2019 წ.

To whom it may concerns,

On behalf of the Ministry of Internally Displaced Persons from Occupied Territories, Labour, Health and Social Affairs of Georgia, I am writing to give my highest recommendations to the project of Georgian Association of Epidemiologists and Infection Control Specialists and Health Care Department (Establishing a possible connection between usage of antibiotics for stimulating livestock raising in households and circulation of AMR strains in the population of the target area, and raising awareness of the population and persons employed in veterinary sector) for application to participate in the Call for Applications 2019-2020 joint TDR and WHO regional offices for Africa, the Americas, Europe, and South-East Asia Small Grants Scheme for Operational / Implementation Research to tackle the threat of Antimicrobial Resistance.

The Goals and Objectives of the project are fully compatible with the National Antimicrobial Resistance Strategy and in case of its successful implementation, it will facilitate the planning of the activities to meet the goals of the Strategy.

The group of researchers in the project are representatives from both the Ministry of Health and Ministry of Agriculture, as well as the National Center for Disease Control and the Vocational Non-Governmental Organization. This cooperation will contribute to solving the problem with multidisciplinary involvement in the overall health context.

Taking into consideration the above-mentioned, the Ministry expresses full support to the project researchers and wishes them succeed in the process of implementation of this very important initiative.

Sincerely,

Deputy Minister
