of the other part,

have agreed as follows:

ARTICLE 1: Objective

The purpose of this formal amendment to the Twinning Grant Contract is to modify the Overview of travel costs (attached).

This modification is necessary because:

Before the signature of the Twinning contract the Overview of travel costs of Member State officials from the place of employment in the Member State to the place of assignment in the Beneficiary country was established for each of the MS Partners in the form of a unit cost per return trip (based on the methodology of the Twinning Manual) and were sent to the EUD to Georgia. Meanwhile, the originally established unit cost for Estonia (399.00 EUR) has been revised by the MS Partner from Estonia and a revised unit cost (450.00 EUR) was resubmitted to EUD prior the signature of the Twinning contract. Since the TW contract was already sent out to the Lead partner to the Slovak Republic for signature the revised unit cost was not taken into consideration. The subject of the amendment is to change the originally established unit cost 399.00 EUR for Estonia (Tallinn) at 450.00 EUR. A difference will be covered by Budget heading V. Reserves.

As regards the Overview of travel costs of the Member State officials from Spain to the place of assignment in the Beneficiary country, a single unit cost per return trip from three destinations: Madrid, Barcelona, and Valencia was established in the amount of 616.00 EUR (as an average of 9 quotations, three per each city of destination representing economically the most favorable quote). For the purpose of the Addendum unit cost per return trip for Madrid-Tbilisi-Madrid will be fixed in the amount of 565,- EUR (as an average of three offers) and other destinations in Spain and all other destinations unforeseen before signing of the contract will be charged on the real costs.

ARTICLE 2: Modification

The changes introduced haven't affected the wording of the contract. Based on the Overview of travel costs the Initial workplan with the budget will be updated.

ARTICLE 3: Cumulative modifications notified

The aggregate amount of the modifications notified, by applying the flexibility rule to date is EUR 1 715, 39 which constitutes 0,11% of the total budget.

ARTICLE 4: Confirmation of validity

All of the parts and dispositions of the initial contract and the side letters/work-plans or amendments, which are not modified here, remain valid.

This Amendment shall take effect upon the notification by the CA of its endorsement by all contract parties as specified below and changes to Annex 1 and initialled by the parties agreed under the project implementation arrangement.

Overview of travel costs

Project title: Improving the standards of employment conditions/relations as well as health and safety at work in Georgia

Twinning Reference Number: GE 17 ENI OT 02 19

Publication notice reference. EuropeAid/163731/DD/ACT/GE

We hereby provide you with an overview of the assumed air travel costs to be incurred during the Twinning Project implementation.

The costs have been defined on the basis of 3 travel agencies' offers (total prices including checked baggage) and they represent economically most favourable quotes for the journeys from Slovakia / Spain/ Estonia (twinning consortium experts' places of departure) to/from Tbilisi.

For the purpose of the Twinning contract preparation economically most favourable quotes are understood travel agency quote with the lowest average price of the return ticket from MS to BC in order to be able to cover real costs of experts' travel.

Where the price of the flight tickets was provided without check in baggage, additional 40Eur was added to the provided offers representing an average price for check in baggage.

As for the travel from Slovakia, the flights are available only from Vienna. The standard distance Bratislava – Vienna Airport – Bratislava is 126km. In order to cover additional costs for transfer from Bratislava to Vienna airport, an amount of 31,50Eur (126km x 0,25Eur) was added to the price proposals.

As for the travel from Spain experts will travel from different cities (Madrid, Barcelona, Valencia and other). For travel from Madrid flat rate in amount of 565 Eur was established as an average price provided by FIIAPP contracted travel agency „VIAJES EL CORTE INGLES“ and submitted by the Spanish project partner. Travel from all other Spanish cities will be reimbursed based on the real costs for economy travel.

For Slovakian and Estonian experts not travelling from Bratislava or Tallinn the flat rate for travel costs is not calculated at the contracting stage and these costs will be reimbursed based

Contract No ENI/2019/409-662, Addendum No 1

on real costs for economy travel. The same applies for any experts travelling from other countries than Slovakia (Bratislava), Estonia (Tallinn) and Spain.
