Letter of Support

Dear Sir/Madame,

I'm delighted to learn that the call for proposals on creating alternative care services for Martkofi and Dusheti boarding houses has been announced. This is one of our priority directions and we highly support implementation of this project which will help us protect the rights of persons with disabilities and create dignified living conditions and their integration into the society.

As you know this is a very specific project that required meeting international standard and engagement of international organization as an implementing partner is highly valued. Therefore, we have been cooperating with Caritas Czech Republic and providing all necessary information for proper development of the project related to alternative care service.

Further, we have a long and good history of cooperating with Caritas Czech Republic in Georgia (CCRG). CCRG is actively involved in the infant's house deinstitutionalizations process through creating long term and palliative care service for children at Zhvania hospital and we will be glad to extend our cooperation in the frame of new projects and ideas with a highly motivated team of CCRG. Our ongoing cooperation gives us ground to consider CCRG as a reliable partner in our joint ventures.

Sincerely,

Meri Maglaferidze

Director, ATIP fund - State fund for protection and assistance of (statutory) victims of human trafficking
