School Year

Medical Requirements

Staff members who are required to travel on long or short-term assignments for the Organization to areas where certain diseases are endemic or epidemic, or where there are special health hazards, should consult the staff physician as far in advance of their departure as possible about the immunizations/prophylaxis it will be necessary or advisable for them to have, and on any other precautions they should take to safeguard their health. In addition, those staff members who are aware that their functions render them especially liable to be called on at short notice to travel to any part of the world should ensure that those immunizations which are required in certain countries are never allowed to become invalid.

Security Requirements

All official travel involving Staff members, Consultants, Temporary Advisers and Dependants is subject to travel notification or security clearance, based on the security situation at destination. It is the traveller's responsibility to submit a travel notification or the request for security clearance accordingly. When security clearance is applicable, it is the responsibility of the traveller not to commence travel before clearance is received.
