2. The next window will allow you to choose the conference format. If you are speaker, please click the button with the microphone icon, or if you only listen to the speeches of other participants, please click the button with the headphones icon (these settings can be changed at any time during the conference).

3. If you choose a microphone, a window will appear asking for permission to turn on the microphone. Please click the "Allow" button.

4. When you enter the Conference Room, you will see the name of the conference (1), the conference field (there will be a video broadcast, presentation, etc.) (2), buttons with communication settings (3), joint chat (4), all users who joined the conference (5). The names of the users who turned on the microphones and are speaking will be highlighted. Please mute yourself when not speaking.

5. You have now joined the conference.
