Online Workshop

24th June 2020, 10.30-12.30

EU_SHAFE Campania Inter-regional policy learning

Introduction

Officially started on August 2019, the EU_SHAFE project aims at improving policies and practices in 7 European regions by developing a comprehensive approach to Smart Healthy Age-Friendly Environments (SHAFE) using a 'learning by sharing' methodology.

In this regard, the digital transformation of health and care provides the tools to transform societal and health challenges such as population aging and health gaps into an opportunity for sustainable development, and is therefore one of the priority areas of intervention for regional investments aimed at filling infrastructure gaps and the digital divide.

The first achievement of EU_SHAFE partners has been the Assessment Report to map the situation of each region participating in relation to 4 from the 8 domains existing under the Smart Health Age-friendly Environments framework.

The four domains that were previously selected by project partners are:

1. Housing. Access to the accessible residence. Available information about existing aids. Aids available for housing (condominiums and house interior). Support services for the older adults to remain in their own homes or residential places. Financial support to low-income collectives.
2. Social Participation. Range of activities related to participation. Availability of information about activities. Personal support for participation. Accessibility of activity spaces. Intergenerational spaces and activities. Approach to isolation and loneliness.
3. Communication and information. Access to information related to life in the community. Format and content of the communication available. Accessibility of Telecommunication. Automated teams. Digital gap.
4. Health and community services. Reach of social and health services. Sufficient services. Socio-Health coordination. Accessible social and health community setups. Friendly professional treatment. Emergency planning adapted to the older adults.

The workshop will focus on Inter-regional policy learning with the objective of sharing the lessons learned and collected in the regional assessment reports and the presentation of the 7 selected good practices in the domain 1-built environment/ housing.

Meeting structure

The duration is 2 hours.

The format is online (GoToWebinar platform) allowing stakeholders from the regional clusters to become familiar with EU_SHAFE strategic objective, community and activities.

REGISTRATION

AGENDA

10:30 Welcome and opening remarks

Maria Grazia Falciatore, Head of Regional Unitary Planning

Monica Staibano, Coordinator of the implementation for Unitary Planning

Moderator:

Maddalena Illario, Campania Region Health's Innovation Unit

Jhon Farrell, Reference Sites Collaborative Network

Session 1: EU_SHAPE showcase

10:45 *Jose Miguel Corres Abasolo* (Bizkaia), Overview of EU_SHAPE

10:55 *University of Deusto*, Preliminary results of the EU_SHAPE Aggregated Report on Good Practices related to the WHO build environment/ housing domain

Session 2: EU_SHAPE in Campania

Interactive presentation on selected good practices in Campania Region

11:10 *Ezio Polizzi & Stefano Gamra* (La Fenice), Co-Housing: "Let's stay together"

11:25 *Luigi Riccio* (Coordinator of Campania Region Unit for Infrastructure & technological Investments), Ospedale del Mare
