

Dear Ms. Gabunia,

In 2018 International Federation of Red Cross and Red Crescent Societies (IFRC) jointly with UHC2030 and Civil Society Engagement Mechanism (CSEM) of UHC2030 initiated global consultations aimed to addresses a number of fundamental questions with regards to the potential engagement of different partners within the Universal Health Coverage (UHC) Agenda. These country advocacy meetings on UHC would provide civil society with a national level platform to advocate for an effective high-level meeting.

Taking into account significant achievements of Georgia and great interest of civil society organizations to this important topic, Georgia Red Cross Society (GRCS) kindly invite you to participate in the country - level advocacy meeting that will take place on 8, May 2019 at 14:00-18:00 in Radisson Blue Iveria Hotel, Tbilisi (First Republic Square 1, 0108 Tbilisi, Georgia).

We hope that this advocacy meeting will provide an opportunity to develop common position on Universal Health Coverage and engage to the Global discussions prior to the UN High level Meeting
