

The International Committee of the Red Cross (ICRC) Delegation in Georgia presents its compliments to the Ministry of Foreign Affairs of Georgia and has the honour to request the following:

In response to COVID-19 pandemic your support is greatly appreciated to waive import restrictions for humanitarian products and to grant simplified import customs procedures to the ICRC. Timely import of life saving products and their allocation according to the needs in Georgia will be ensured if the ICRC is exempted from applying to the Revenue Service for granting humanitarian status for these goods through its electronic services.

WHO recognizes the critical role of supply chains in delivering medical supplies to the countries affected by COVID-19 with unmet needs (letter from WHO 30 March 2020 attached).

The International Committee of the Red Cross Delegation in Georgia avails itself of this opportunity to convey to the Ministry of Foreign Affairs of Georgia the renewed assurance of its highest consideration.
