I am writing to apply for the position of a Data Analyst at the Network Tbpeople. I have over 20 years of experience in healthcare, statistics and public funding topic.

My academic background is Master of Public Health (University of Georgia, Tbilisi, Georgia) and Master of Mathematical Science (Tbilisi State University). Currently, I am in the process of completing my doctorate degree in Public Health Program (University of Georgia), with a focus on Health Financing and Catastrophic Healthcare Expenditure.

My Experience in health care financing started in 2005 when Ministry of Labour, Health and Social Affairs started implementation of National Health Accounts. I was engaged in the working process to Assess Global Fund funded programs in the country for NHA purposes.

From 2009 I responsible to prepare information on HIV/AIDS-related expenditures for UNGASS report on the basis of NHA data, that include monitoring and evaluation of financing of harm reduction services. I also know key players in the field of HR in Georgia and I am familiar with the sources of their financing.

Furthermore, in 2015 I worked as a consultant for Data Analyst for Assessment of the Government Expenditures for Tuberculosis Services in Georgia under USAID/URC project. This work included to perform a desk review of available data related to the state budget TB expenditures for health care; to collect detailed TB expenditure data; Conduct statistical analyses of all relevant data and assessment of TB expenditures for the last 3-5 years according to the predefined methodology.

I have an experience of public financing mechanism as I am participating development of Basic Direction Documents. I also have participated elaboration of financial mechanisms for HIV/AIDS Control Strategy, TB control Strategy and Hepatitis C Elimination Strategy.

From 1997 I responsible to prepare National Health Reports and Health System Performance Assessment Reports at the Ministry of IDPs, Labour, Health and Social Affairs.
