

29<sup>th</sup> March 2021

Dear Honorable Minister of Health,

Please note that this document is a confidential document.

The procurement price with Pfizer is \$12 per dose.

The Actual Procurement Price (and for Participants subscribed to the Committed Purchase Arrangement, the Adjusted Cost Per Dose) for this allocation is \$11 per dose.

Therefore the total purchase value owed by the participant Georgia is \$12,870. This includes vaccine doses and freight to country but does not include diluent, syringes, safety boxes nor taxes/duties by recipient countries.

Please refer to the final cost estimate and purchase orders as communicated by the respective procurement agencies or manufacturer.

For questions to the COVAX Facility please do not hesitate to reach out to your Senior Country Manager or COVAX Facility focal point as well as copy WHO and UNICEF colleagues in this communication.

Sincerely,

A handwritten signature in blue ink, appearing to read "Aurélia".

Aurélia Nguyen  
Managing Director  
Office of the COVAX Facility
