To: Stop TB Partnership TB REACH

Dear Sir/Madam,

With this letter Ministry of Internally Displaced Persons from the Occupied Territories, Labour, Health and Social Affairs of Georgia (MoIDPsLHSA) expresses its support to the "National Center for Tuberculosis and Lung Diseases" (NCTLD) for the application: *"Implementation of a fully oral shorter treatment regimen with bedaquiline, pretomanid, and linezolid for MDR-TB treatment intolerance or resistance under closely monitored programmatic conditions in Georgia"* prepared for the Stop TB Partnership's TB REACH Wave 7 call.

Proven previous experience and high expertise of the NCTLD represent important factors for meeting the primary objectives of the project and achieving the expected results.

The MoIDPsLHSA intends to support project implementation via cost-sharing on specific project items inducing: hospitalization and ambulatory service fees of patients suffering with drug resistant forms of tuberculosis, their cash incentives for treatment adherence and transportation procurement and part of pharmaceuticals for proposed drug regimen through state funding.

Respectfully,

Deputy Minister of Internally Displaced Persons from the
Occupied Territories, Labour, Health and Social Affairs
of Georgia
